INDEX VOLUME XXXII

<i>Abbott, H. L. and Liu, A. C.</i> , The existence problem for colour critical linear hypergraphs. . . .	273
<i>Ahlsvede, R. and Katona, G. O. H.</i> , Graphs with maximal number of adjacent pairs of integers. . .	97
<i>Benabdallah, K. et Bradley, R.</i> , Sur les groupes quasi- p -purs-projectifs.	263
<i>Blasco, J. L.</i> , Two problems on k_R -spaces	297
<i>Blundon, W. J.</i> , A nine-fold packing	293
<i>Böröczky, K.</i> , Packing of spheres in spaces of constant curvature	243
<i>Bradley, R. et Benabdallah, K.</i> , Sur les groupes quasi- p -purs-projectifs.	263
<i>Chakrabarti, P. S.</i> , On properties of Peano derivatives	217
<i>Cornish, W. H. and Hickman, R. C.</i> , Weakly distributive semilattices	5
<i>Erdős, P. and Szabados, J.</i> , On the integral of the Lebesgue function of interpolation.	191
<i>Filippov, V. V. and Üry, L.</i> , A theorem on relative universal spaces with given weight and dimension.	371
<i>Fisher, B.</i> , Mappings on metric spaces	283
<i>Frankl, P.</i> , An extremal problem for 3-graphs	157
<i>Govaerts, W.</i> , E -compactness and continuous function spaces	235
<i>Györy, K.</i> , On polynomials with integer coefficients and given discriminants. V.	175
<i>Haf, H.</i> , Meromorphe Zweige von Lösungen bei asymptotisch linearen Operatorgleichungen. . .	21
<i>Hermann, T.</i> , On the Szász—Mirakian operator	163
<i>Hickman, R. C.</i> , Distributivity in semilattices	35
<i>Hickman, R. C. and Cornish, W. H.</i> , Weakly distributive semilattices	5
<i>Iyehen, S. O.</i> , The range space in a closed graph theorem	17
<i>Katona, G. O. H. and Ahlsvede, R.</i> , Graphs with maximal number of adjacent pairs of integers. .	97
<i>Кершнер, Р.</i> , О некоторых свойствах обобщенных решений квазилинейных вырождающихся параболических уравнений	301
<i>Kishore, N., Misra, R. B. and Meher, F. M.</i> , On a recurrent Finsler manifold with a concircular vector field	287
<i>Kröger, H.</i> , Periodizitätsverhalten Boole'scher Differenzengleichungen	197
<i>Kroó, A.</i> , On the continuity of best approximations in the space of integrable functions.	331
<i>Lee Sin-Min</i> , On the constructions of local and arithmetic rings	31
<i>Liu, A. C. and Abbott, H. L.</i> , The existence problem for colour critical linear hypergraphs. . . .	273
<i>Makai, E., jr.</i> , The isomorphisms of the category of uniform spaces and related categories. . . .	121
<i>Meher, F. M., Misra, R. B. and Kishore, N.</i> , On a recurrent Finsler manifold with a concircular vector field	287
<i>Misra, R. B., Meher, F. M. and Kishore, N.</i> , On a recurrent Finsler manifold with a concircular vector field	287
<i>Mohammed, I. B.</i> , Some properties of matrix of coefficients in Block's multiplication table of the simple modular Lie algebras of Block type	53
<i>Nešetřil, J. and Rödl, V.</i> , The structure of critical Ramsey graphs	295
<i>Noiri, T.</i> , On functions with strongly closed graphs	1
<i>Petz, D.</i> , On a problem of D. Newman	161
<i>Rödl, V. and Nešetřil, J.</i> , The structure of critical Ramsey graphs	295
<i>Rosenberger, G.</i> , Eine analytische Kennzeichnung einer Klasse diskreter Gruppen und ihrer Riemannschen Flächen	47
<i>Somorjai, G.</i> , On a saturation problem	377
<i>Szabados, J. and Erdős, P.</i> , On the integral of the Lebesgue function of interpolation	191

<i>Szalay, M.</i> and <i>Turán, P.</i> , On some problems of the statistical theory of partitions with application to characters of the symmetric group. III	129
<i>Szeto, G.</i> , Classical algebras of quotients and central quotients of algebras	59
<i>Travis, C. C.</i> and <i>Webb, G. F.</i> , Cosine families and abstract nonlinear second order differential equations	75
<i>Trotter, P. G.</i> , Ideals in $Z[x, y]$	63
<i>Turán, P.</i> and <i>Szalay, M.</i> , On some problems of the statistical theory of partitions with application to characters of the symmetric group. III	129
<i>Úry, L.</i> and <i>Filippov, V. V.</i> , A theorem on relative universal spaces with given weight and dimension	371
<i>Vasudeva, R.</i> , A log log law for Abel's sum	205
<i>Vértesi, P.</i> , Hermite—Fejér type interpolations. I.	349
<i>von Renteln, M.</i> , Topologische Nullteiler und endlich erzeugte Ideale in gewissen Algebren holomorpher Funktionen	229
<i>Webb, G. F.</i> and <i>Travis, C. C.</i> , Cosine families and abstract nonlinear second order differential equations	75
